INTRODUCTION

Description of the Plan

The Saskatchewan Power Corporation (SaskPower; the Corporation) established the SaskPower Supplementary Superannuation Plan (the Plan) on January 1, 1988 for the purpose of providing superannuation benefits under this Plan to SaskPower employees enrolled in the Plan (the Participants).

The Plan is not registered as a pension plan under the *Income Tax Act (Canada)*. The Corporation has not established a trust nor does it hold property for the specific purpose of providing benefits to the Participants. Benefits are funded out of current operations.

SaskPower was the administrator of the Plan from January 1, 1988 to March 14, 2000. On March 14, 2000, an Order in Council designated the administration of the Plan to the Public Employees Benefits Agency.

Enrollment

In order to become a Participant in the Plan, eligible employees (Management Level IV and up) must sign a form agreeing to indefinitely forego their entitlement to 13 banked days off in return for enrollment in the Plan.

As at December 31, 2001 there were 243 (2000 – 221) active Participants in the Plan and 32 (2000 – 34) retired or terminated Participants who received benefits from the Plan.

Banked Days Earned

On an annual basis, the notional account of each Participant is credited with a sum equal to 15 days of a Participant's daily salary. The crediting of each sum is deemed to occur on January 1 of each year. In addition, the Corporation may from time to time credit each participant's notional account with such additional amounts as it deems appropriate. The notional account of each participant represents a contribution receivable from SaskPower. Notwithstanding the above, in no event shall any amount credited under the Plan be in lieu of compensation payable during the year or a previous year.

Interest

On December 31 of each year, the amounts deemed to be held in the accounts of the Participants are credited with an additional amount equal to the greater of:

i) The percentage yield on the mean actuarial value of the investments by the Power Corporation Superannuation Plan for the year ended September 30 of that year; or

ii) The average rate of interest paid during the year on one year Guaranteed Investment Certificates (GICs) of the Bank of Canada Series B14054 or its successor. For this purpose, the rate of interest paid on one year GICs on the first business day of each month shall be used to determine the average rate of interest paid on GICs.

The rate used to calculate the interest credited to the Plan during 2001 was 15.0% (2000 – 5.9%).

Benefits

A Participant's benefit entitlement date is normally January 31 of the year following the year in which the Participant terminates active service with the Corporation.

Upon termination of active service, Participants elect how superannuation benefits are to be paid. In the event of termination of service, the Corporation on behalf of the Plan may pay a Participant's superannuation benefits in a lump sum. However, in no circumstances shall superannuation benefits under this Plan be paid over a period exceeding 5 years.

FINANCIAL STATEMENTS

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of net assets available for benefits of the Saskatchewan Power Corporation Supplementary Superannuation Plan as at December 31, 2001 and the statement of changes in net assets available for benefits for the year then ended. The Plan's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as at December 31, 2001 and the changes in net assets available for benefits for the year then ended in accordance with Canadian generally accepted accounting principles.
